Dog Licenses

Requirement. Every owner or keeper of a dog three months old or over shall annually before April 30 register it with the town clerk. Before the dog may be registered, the owner must furnish the clerk a certificate that the dog has been vaccinated against rabies in accordance with the provisions of RSA442-a. The licensed dog must wear around his neck a tag which carries his registration number, the name of the city or town, and the year of the issue of the license.

RSA 466:4 FEES: The fee for every license for a year shall be \$3.50 for a neutered male or spayed female dog, \$6.00 for an unneutered male and \$6.50 for an unspayed female dog, and such proportionate sum for licenses for dogs becoming 3 months of age after May 1, or which may be brought from out the state after May 1, as the remaining portion of the year bears to the sum required for a license for a whole year; provided, that the owner or keeper of such spayed female dog or neutered male dog shall furnish a certificate from the person performing the operation, to the satisfaction of the clerk of the town or city wherein such dog is owned or kept.

466:7 LATE FEE Additional Charge where payment of licensed fee is delayed. In addition to the license fees provided in RSA 466:4, there shall be a charge of one dollar for EACH MONTH or any part thereof that the fees remain unpaid if said fees are not paid before June 1 in any year.

Library Report

The Library has had another successful and busy year. The patronage has remained about the same with children making up about half of our patrons. We are pleased to have the children because we believe that reading and love of books are two of the most important things a child can learn. These two things will help lead them to much success and enjoyment.

The Library is open every Thursday 3 - 5 p.m. under the direction of Margaret Merrell and from June to mid-September is open Tuesday evenings 7 - 8:30 p.m. under the direction of Hildreth Danforth or Rodney Hayes. We would like to thank these people for their service to the Library during the past year.

The film program was offered again under the direction of Kathleen Judge. Films were shown on the first Thursday of each month from November through June. We would also like to thank Kathleen for doing this for the children each month.

We have been informed of the possibility of losing the Bookmobile service. From the information below, it can be seen that the bookmobile is a very important part of our library service. Hildreth Danforth attended a meeting in Franconia to register our opinion on the importance of the Bookmobile and we have also written to the State Librarian about this and we will continue to fight to keep the Bookmobile in operation.

Report of District Fire Chief and Your Forest Fire Warden

For more than 80 years, a cooperative effort between the State of New Hampshire and local forest fire authorities has created a forest fire prevention and suppression program that is recognized as superior throughout the United States.

Since the first forest fire laws were written in 1895, the state and local community governments have worked together to prevent and combat forest fires.

Today, 249 forest fire wardens and more than 1,800 deputy wardens are appointed every three years by the State Forester to work with the members of the State Forest Fire staff in this effort. State funds are used to pay one-half the cost of forest fire suppression costs incurred by local forest fire organizations, within pay rates established by the Governor and Council. State funds matched by local funds are used to purchase hand tools to suppress forest fires, to train local forest fire crews and in forest fire prevention work.

All outside burning, when the ground is not covered with snow, is permitted only after obtaining a written fire permit from your local Forest Fire Warden. Penalty for burning without a permit when one is required is a misdemeanor punishable by a fine up to \$1,000 or a jail term of up to one year or both.

REMEMBER, ONLY YOU CAN PREVENT FOREST FIRES!

Report of Shelburne Fire Department

Activity Report for 1978

The fire department had twelve regular meetings. They are held at 7:00 p.m. on the second Tuesday of each month.

At each meeting the trucks are all checked and at times many repairs are made.

Each summer during the dry season, the water holes and hydrants are cleaned and checked. This year several were completely dug up. All the joints were recemented and defective elbows and pipe replaced. It is a regular practice to check hydrants and pump water from them.

Our old civilian defense four wheel drive truck which was no longer working, was replaced by another. The pump, tank and lights had to be changed.

A 1500 gallon portable holding tank has been purchased.

The fire station has been insulated.

The department responded to several chimney fires, which were extinguished.

One camp burned, which was a long distance in the woods.

We would like to thank the people of Shelburne for their cooperation. It is our sincere wish that more people would attend meetings.

Police Department

Police activity in 1978 was reduced from previous years. Traffic accidents and related investigations have always taken a high percentage of police time and attention. In 1978, there were fewer accidents than usual, and the seriousness of those investigated declined from previous years. Alcohol and speed too great for existing conditions showed up quite predictably in several instances. Law enforcement responsibilities were shared with the N.H. State Police, with their relieving the burden in many instances. Numbers of reported thefts were in line with other years, although the amount of loss claimed by theft victims was higher in many instances.

Stray and nuisance animal complaints are on the rise. We have areas in town which seem to be popular for dropping off unwanted dogs and cats. The law prohibits the abandonment of any animal by its owner, but detection and prosecution is nearly impossible. The animal clinic in Gorham has been cooperative in taking strays and attempting to find homes for them. When the animals are boarded for the required time and destroyed, the expense to the town can be considerable, making this an economic problem as well as a legal one.

A number of complaints are made annually about local dogs bothering local people. This problem is what resulted in a leash law in Gorham. Leash laws appear to cause as many problems as they solve, but such laws naturally follow when complaints become numerous. The message is clear that a better alternative is that owners make every effort to keep track of their pets.

We wish to thank all the agencies with which we have worked in 1978 as well as all the townspeople who have given support and assistance.

Respectfully submitted,

J. BAKER

Report of The Memorial Forest Committee

In the early spring, several days were spent cleaning and raking the grounds around the Memorial.

A new flag was installed on Memorial Day. The grass was fertilized and limed during the spring rains.

The grass was cut periodically during the growing season.

In the late fall, much work was done cleaning out scrub growth and unwanted trees. It is our hope to encourage the young birch trees, so that they will replace the older ones which die.

It is our impression that the town forest looks the best we have seen it.

Report of the Shelburne Cemeteries

The cemeteries were maintained in a very satisfactory condition throughout the summer season.

Several maps were made of the older cemeteries and the large ones will be completed during the next summer.

In the coming season the fences at the Peabody and Evans cemeteries will be extended to protect more lots which have already been marked.

Shelburne Civil Defense

The weather and flooding predictions for the Spring of 1979, warrant me, as your Civil Defense Director, to urge all property owners bordering any brooks, streams or rivers to prepare for high waters.

Check your food and fuel supplies and if your property might need sand-bagging, do not wait until the property can not be reached by vehicles. Preparedness can save hundreds of dollars.

If I can be of any help or you have questions, do not hesitate to call me.

Civil Defense Director,
WARREN A. HAYES

The Shelburne Planning Board

The past year has been a very active year for the Planning Board. In addition to reviewing several subdivisions the Planning Board has worked with the Conservation Commission in preparing a questionnaire on Town Growth. The results of which we have been using in our review of the existing subdivision regulations. We have also spent considerable time and effort in trying to arrive at a settlement of the "Coulombe Case" but have not succeeded.

As was mentioned above the Planning Board has spent considerable time and effort in drawing up a set of subdivision regulations. Based on the results of the questionnaires and of the two (2) Public Meetings held in November the Planning Board felt that substantial modifications should be made to the Models presented at that time to reflect local concerns and needs. It is hoped that the revised Subdivision Regulations can be presented at a Public Hearing in late February or early March.

The following Subdivisions have been submitted to or reviewed with the Planning Board in the past year.

Name of Subdivision	# of Lots	Stage of Board Action
1. Larry Losier Lot # 1	1	Approved
2. Tassey Lot # 8	1	Approved
3. Gerald Ferguson	6	Preliminary Application
4. Anne Connor	27	Preapplication

Report of The Conservation Commission

The Conservation Commission enjoyed a very busy and successful year. Much time was spent assisting the Planning Board in writing and compiling statistics on the questionnaire. Much interest and support was shown on the conservation questions. Thirty-four scenic or natural features were designated as areas which might be preserved. These are being studied by the Commission to see which ones would come within the jurisdiction of the town.

An informal census was done and the population of Shelburne in 1978 was 303, with a home population growth of 56% in the past eight years.

Several town projects such as; a new fire house, a new east-end bridge, and land for recreational development were studied with the Selectmen. Leon Lakin, Director of North country Educational Services, and Mike Hickey, North Country Council, met with the Commission and were helpful in directing us on possible funding.

We would like to thank you for your co-operation and support of the Conservation Commission this year.

North Country Council, Inc.

In Shelburne, North Country Council provided technical assistance on revising the town's subdivision regulations. Helped prepare town planning questionnaire. Met with local officials to discuss community facilities funding and growth control mechanisms.

The North Country Council continued to make substantial progress in 1978 by providing services in the following areas:

Planning Services: Providing local technical assistance to member communities continued to consume a good amount of Council time. Areas of assistance include: master planning, subdivision regulations, zoning, reviewing development proposals, mobile homes, grantsmanship, etc. Through a grant from the Farmers Home Administration, NCC will have the services of a project planner and planning engineer to further assist communities in water supply, solid waste and review of development proposals.

Economic Development: NCC updated its Overall Economic Development Program, a requirement which entitles the North Country to EDA grants and loans. The Council also completed a Wood Energy Study and a Downtown Improvement Program for 1 town. Through the resources of the University of New Hampshire, a business counseling program is being developed. Federal and state agencies use the Council's work as a guide for future public investments.

Preparation of Regional Plans: In 1978, the Council adopted and published both the Land Use Element and the Housing Element. Both of these documents provide a broad framework for action in these two areas. In the area of solid waste, the Council has coordinated a number of meetings with the NH Air Pollution Control Commission, Division of Public Health and sponsored a meeting on solid waste disposal in January 1979. The Council has continued to make progress in the Public Transportation Program. NCC also coordinated with the NH Department of Public Works and Highways in the annual meeting to receive local input on needed highway improvements. Much of the Council's time is spent responding to requests from Selectmen on various planning matters. Fact sheets have been prepared on soils and community planning, wetlands, and master planning. Other educational documents will be prepared in 1979.

North Country Perspective: NCC continues to respond to opportunities to provide a North Country perspective to federal and state policies. NCC represented the area in a 3-day workshop as part of the Farmers Home Administration's national assessment of rural community facilities. Council members represent the North Country on the State's "208" Water Quality Program, solid waste program and other areas. The Council testified before the NH House subcommittee on Growth.

Education and Information: For the third consecutive year, the North Country Council co-sponsored the six municipal law lectures. A special workshop was held on the development of small hydro sites. NCC also sponsored a North Country meeting of bankers, real estate agents, local officials, and other development interests to inform them of the opportunities under the NH Housing Finance Agency's mortgage program. With the advent of Planning Profiles, the Council's monthly newsletter, NCC is making an effort to keep local officials and interested persons up-to-date on Council programs and other related planning activities. In a further effort to solicit local input on planning projects, the Council has been holding a series of subregional meetings around the North Country.

In 1979, the Council expects to provide more services to local officials to help them carry out the goals of their own towns. The newly-funded Area Development Assistance Program will provide greater assistance to communities. NCC will be working on an energy program to determine the practicality of developing indigenous energy resources. Requests for community planning services will increase.

Membership in the Council over the last five years has increased from five members in 1973 to forty active members in 1978. A good deal of service has been provided in that period and it is hoped that more can be provided in the years ahead. Ideas on how the Council can be of greater assistance to towns are welcomed. The Board of Directors and all the members of the North Country Council greatly appreciate the support received from the towns. This support has enabled the Council to provide its planning services for the region and local communities.

Androscoggin Valley Mental Health Center

As you are undoubtedly aware, it has been the custom for North Country Community Services to make an annual request for funds to each of the communities that it serves. We are making a similar request this year under our new name, Androscoggin Valley Mental Health Center. The amount that we are requesting to be placed on your town meeting warrant is \$241.00, which is the amount that we received last year.

The fact that we are not asking for an increase is not meant to imply any lessened need for the appropriaiton, but rather is in recognition of the budgetary constraints that town and municipalities are facing. Rest assured that these funds, although a relatively small portion of our total budget, are vital in terms of their capacity to generate additional state and federal dollars to assist us in providing the comprehensive mental health and developmental services to residents of Shelburne.

Recent additions to our staff, together with our new location at the Androscoggin Valley Hospital, combine to enable us to provide quality mental health services in a comfortable environment.

The North Country Workshop program for handicapped adults, which is also sponsored by this agency, has recently acquired property which will allow it to expand its vocational, social and personal development services to its clients.

Over the past thirteen years a large number of residents from your community have had direct or indirect contact with our agency's services. The appropriation of the Town of Shelburne in the amount requested will assist us in continuing to provide these services to your community.

Should you have any questions or need further information, please contact us.

Report of the Androscoggin Valley Ambulance District

The year 1978 was one of drastic change for the Androscoggin Valley Ambulance District. On the recommendation of the State Emergency Medical Services, the district has been completely reorganized.

The District had been one Ambulance Service with two ambulances, one in Gorham and one in Milan. Ownership, operation and maintenance of these vehicles was the mutual responsibility of the participating towns. Under the new set up, there are separate Ambulance Services within the district. Shelburne now contacts directly with Gorham for Ambulance Service without liability for maintenance or equipment. The Town of Gorham has assumed complete responsibility and ownership of the Gorham based ambulance and equipment. The town of Shelburne is guaranteed ambulance service. This will be paid by a per-capita assessment to the town and service charges to individuals for use.

The District Board of Directors has assumed an advisory capacity to the Ambulance Services with responsibilities for training and coordination of services within the District.

Report of Superintendent

To the Citizens of the Town of Shelburne:

As has been the case in past years it is my intention through this report to keep you informed of the many issues facing the community in the future as well as to report to you some of the matters which have occurred or about which you should have information.

The body of my report will include specific comments about what is happening in the Supervisory Union and in the Gorham School District in particular as well as some matters which pertain to Shelburne, the budget of the Shelburne School District, and the school warrant.

If, after reading the report, you have been left with a greater understanding of the issues and the problems, I will have succeeded in conveying my message.

SCHOOL WARRANT

The school warrant for the year 1979 - 80 hardly needs to be mentioned. In actuality it contains nothing new which could be considered to be important or about which you would need special information. Other than Article 9 which is to continue building our Bus Capital Reserve Fund no additional amounts of money are being requested.

SCHOOL BUDGET

The budget proposed to your Budget Committee for the 1979 - 80 school year reflects a total gross increase of \$3,738.09 and a projected net increase of \$3,002.09. Both figures represent a 4.02 and 3.42% increase respectively in the gross and net budgets.

Increases of any substance may be found in several areas. One of those areas is transportation due to increased salaries and operational cost. The second is in the area of tuition which has climbed from \$82,493.00 to \$84,763.00 for an increase of \$2,270.00. The third is under the Supervisory Union which has increased by \$470.01 over a year ago.

With all matters considered, particularly inflation, the budget increase being proposed for 1979 - 80 is not large.

TUITION STUDENTS

The numbers of tuition students often changes from year to year. To compare what has happened in recent years I have included the numbers of students below:

	<u>1977-1978</u>	<u>1978-1979</u>	<u>1979-1980</u>
Kindergarten	2	4	2
Grade 1	4	4	5
Grade 2	1	3	4

TUITION RATES

Tuition rates for 1979-80 have again increased. Comparisons of costs between 1976 - 1980 may be found below:

	<u>1976-77</u>	<u>1977-78</u>	<u>1978-79</u>	<u>1979-80</u>
Kindergarten	\$ 459.00	\$ 510.00	\$ 564.00	\$ 586.00
Elementary	918.00	1,014.00	1,128.00	1,172.00
Junior High School	1,348.00	1,445.00	1,699.00	1,935.00
Senior High School	1,424.00	1,557.00	1,759.00	1,961.00

For those of you who may wish to know how these figures compare with State Average tuition figures I have included a second chart:

	<u>1976-77</u>	<u>1977-78</u>	<u>1978-79</u>	<u>1979-80</u>
Kindergarten	475.00	531.00	574.00	644.00
Elementary	950.00	1,061.00	1,148.00	1,288.00
Junior High School	1,083.00	1,208.00	1,337.00	1,410.00
Senior High School	1,221.00	1,249.00	1,344.00	1,540.00

Though some comparisons may be drawn between state average tuition figures and Gorham tuition figures, one must be conscious of the following differences:

1. Until recently Gorham was adding a rental charge to the tuition rate. This is no longer the case.
2. Gorham tuition rates are based on the budget of the year preceding that for which the charge is being made while state average figures are based on actual expenditures two years preceding the year which the charge is being made. There is, therefore, a year's difference between the two.

The most accurate comparisons which can be made are between Gorham's charges for 1978-79 and the state figures for 1979-80. Both sets of figures are at least based on the same school year.

NEW HAMPSHIRE ACCOUNTABILITY PLAN

The New Hampshire State Board of Education has mandated that all schools in New Hampshire develop and implement a plan whereby the schools would assess, on three grade levels, the level of competence of their children in the areas of English and communications skills, mathematics, United States History and government and New Hampshire History and government. The results of the assessment which is scheduled to take place in the spring of 1981 or as early as the fall of 1980 will be reported to the state and to the community as a whole. The results will also be developed into a series of recommendations for each local school board so they may consider changes which will have to be made to continue the quality of the school's programs or to upgrade the programs in specific areas where a deficiency might exist.

The effort by the New Hampshire State Board of Education as reflected by the New Hampshire Accountability Plan is an attempt to determine what the schools in New Hampshire are doing, to help local school boards improve the quality of local programs, to assure that tax dollars are being wisely spent, and to assure the children in New Hampshire schools are receiving a quality education.

The New Hampshire Accountability Plan effort has been in the making for several years. Presently the several school districts of Supervisory Union No. 20 have formed a Steering Committee composed of parents, teachers, school board members, and administrators to develop the Plan. From time to time, therefore, you will be seeing gatherings of people at the schools in Gorham during the day or evening working jointly to put the plan together. At times some of your children's

teachers will be released from their teaching duties to work on the Plan. I ask that you understand that this is necessary. Hopefully the interruption to local school programs will be held to a minimum.

The New Hampshire Accountability Program, if successful, will provide all parties to the process of education a much clearer picture of how the schools are meeting the needs of your children. Hopefully the results will be positive. In areas where the needs of your children are not being met, I hope you will join with us to improve our programs so they serve those they were intended to serve.

FUTURE PLANNING

The Gorham School District has completed two parts of the three part study I reported to you in the spring of 1978. Completed were studies on energy conservation measures which could be taken during the next 3-5 years to make all buildings in Gorham more energy efficient and the study on the needs of the handicapped. The one remaining study yet to be completed is that of space needs for the future. That part of the study was being done in anticipation of federal funds being available from EDA. Presently it does not appear the funds for the 3rd part of the study will materialize. Both parts that have been completed, however, will require large expenditures of money and some fairly substantial changes in existing buildings.

For the school year 1979-80 the Gorham School Board has recommended and budgeted nearly \$65,000.00 to begin the implementation of the first two parts of the study. Similar amounts will be requested in future years until recommended projects of any substance have been completed.

PROGRAM CHANGES

With the possible exception of some minor program changes which often occur from year to year there are no planned curricula changes in the Gorham Schools which could affect your children. Most efforts in recent years have been made in the area of program improvement to existing programs. In the near and far future I don't see a change in that direction. In fact, I see a stronger emphasis than now exists, if anything.

COOPERATIVE PROGRAM FOR THE HANDICAPPED

The Berlin and Gorham School Boards in conjunction with the school boards of Milan, Errol, Dummer, Randolph, and Shelburne have been working cooperatively to form a regional

program to meet the needs of handicapped children in our immediate area. The focus of the program would be to assure to a community such as Shelburne that area programs would be open to Shelburne children should they ever be in need of such services. Secondly the structure of the programs would avoid in Gorham and Berlin needless duplication of services. The results of the second part would provide that Gorham continue to offer programs for handicapped children from ages 3-13. Berlin would agree to offer programs for handicapped children from ages 14-21. The outcome would be to avoid duplication in either community and hopefully save money in the process.

When and if the program between Gorham and Berlin is adopted by both communities, and joined by the other towns in Supervisory Union No. 20, it is possible that Shelburne students who are handicapped could be asked to attend schools in Berlin rather than Gorham. Should this occur and should it affect children from Shelburne the parents of the children involved will be made a part of the final decision.

SUMMARY

Education is and should be a shared responsibility among all the elements comprising a community. Included are parents, churches, teachers, selectmen, and members of your local school board. To all those individuals represented, especially the members of your school board, I wish to express my sincere thanks and appreciation.

Respectfully submitted,

ROBERT BELLAVANCE
